CATALOGUE

Making rainy days stylish

WPC produces fashionable rainwear and goods that allow you to express your own style even on wet days. The fabric across the entire range is lightweight with a highly water-repellent function. On-trend patterns and colours are a feature of this brand thereby ensuring your rainwear is a fashion statement too.

Mini Folding Umbrella

Lightweight umbrellas in on-trend patterns to help you define your own style. All conveniently fit easily into their own carry bags even when wet and are light enough to always have on hand in your bag or car.

Rain Bicycle Poncho

With so many features, this poncho is perfect for any bicycle rider. The TPU laminated fabric has a water-repellent rating of 10,000mmH2O and it has been designed to fit snugly over you as you ride with adjustable straps and bands to hold it into place.

- The hood adjusts to the size of your helmet and includes a pull tag to ensure it fits neatly.
- Seam tape has been used so that no water can get through the sewed edges.
- Back zippers open to fit over a backpack when needed.
- 3 bands with clips hold the poncho in place that work like suspenders as they clip onto your backpack or pant belt loops.
- Elastic fits over your palms to hold the poncho in place while still covering your hands entirely.
- Reflection tape in 5 locations for safety.

AUX Co., Ltd.

Designed kitchen utensils for serving your best life.

Niigata is an area of Japan that gets very cold with lots of snow. It is also considered to be the home of local manufacturing of cutlery and kitchen utensils in Japan and is where AUX is based.

Established in 1946, AUX are able to mould ideas into designer kitchenware that always has a focus on both functionality and aesthetic appeal. Considered as experts in the utensil design, AUX aims to create products with innovative ideas through their close manufacturing network and their creative ability to turn concepts into products.

All items are made in Japan.

A note on all tongs by AUX

All the tongs made by AUX have the same spring action which is patented in Japan. Usually, a spring needs only one press for tongs however AUX perform this press in 2 directions during manufacturing – once horizontally and twice vertically which makes them both gentle to use and durable. Extensive testing of 100,000 opening and closing actions of the spring has been completed and the springs did not warp or change shape in any way. There is a certificate of durability available as evidence but most importantly you can be sure that these tongs are all easy to use and will last in your kitchen.

Clear Soft Pen Case and Pouch

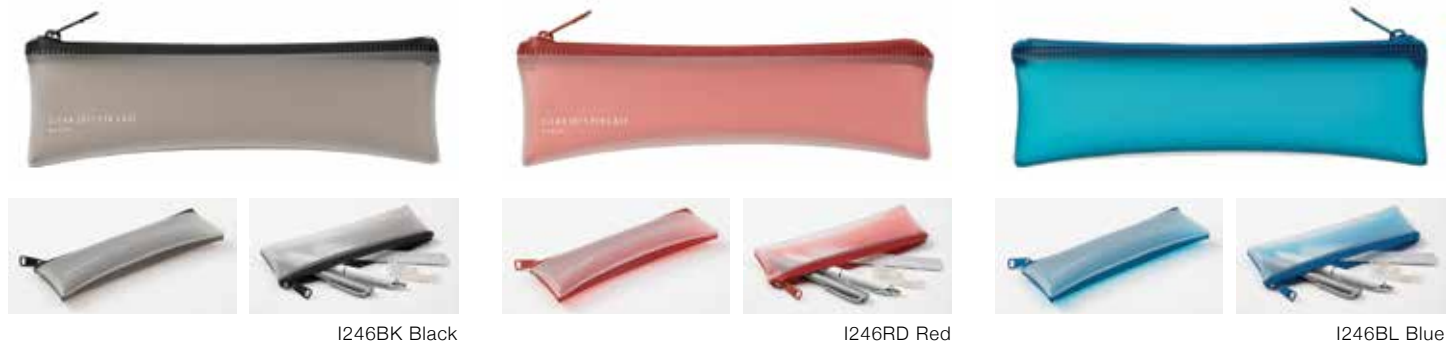

These cases are made from Thermoplastic Polyurethane (TPU) which is a highly durable and flexible material with a low environment impact. One side is colourless with almost full transparency and the other is coloured translucence which gives the overall effect of shading. The larger Pouch has a divider made from the darker shade to allow you to separate your items to make them easier to find and retrieve. The zipper on both styles is by Midori and completely closes to create a soft cloth top. Suitable for storing items from stationery to makeup and available in 3 colours.

Sizes:
 Pen Case: h60mm x w200mm x d12mm
 Pouch: h130mm x w220mm x d40mm

Pair Set

Small Pole Pole animals are very difficult to create as attention to detail must remain the same but on a much finer base. These pairs of animals featuring adult and child show this work to allow you a greater connection to your selected animals just as you would to a special jewel.

Pole Pole Dinosaur

Here come the Dinosaurs! They should be scary but in true Pole Pole style they still have that cute factor whilst remaining realistic. Slightly larger than the usual Pole Pole Animal series, they are easy to hold and move around as you play with them.
